## About us

Located in Willenhall, West Midlands, B.E.Wedge offer a UK wide service for high quality spin galvanizing of items such as brackets, pressings, nuts, bolts and other metal fasteners and fixings including threaded fasteners up to 2m in length, and washers from 1.5mm thick. We can also galvanize continuous lengths of chain. Our experienced team is always on hand to provide free advice about your galvanizing requirements.

B.E.Wedge Ltd is part of Wedge Group Galvanizing Ltd, the UK's largest hot dip galvanizing organisation. The Group can process anything from a 1.5mm washer to a 29 metre beam. Our continuing investment in new technology and equipment, together with our commitment to customer care ensures that we offer you 'Excellence in Galvanizing'.

### Benefits of Galvanizing

Galvanizing has long been seen as the most environmentally-friendly finish available to prevent corrosion. The coating is highly sustainable and produces minimal waste. Depending on the environment where it is used, galvanizing can give you an expected maintenance free life of 40 years or more.

## B E WEDGE LTD
